Ryan –

I just left you another voicemail message and have just learned from a Superfund colleague that our Regional Administrator has now received a PDF copy of a response letter from Gov. Brian Sandoval. I am attaching a copy of the letter to this message. As you will read, the Governor's letter indicates that they need additional time before they can provide a formal response by April 29, 2016.

Please let me know if you have any questions or need any additional information.

Yes, thanks, was checking about Anaconda.

Can you check periodically and let me know if something comes in from Sandoval's office?

Ryan –

Just called you and was only able to leave a message. If you were calling regarding whether we have heard yet from Gov. Sandoval on EPA's proposed listing of the Anaconda Copper Mine to the NPL, I checked this morning with my colleagues in Superfund, and as of now, we have not yet received a response, but I did ask them to let me know if/when they do. We are expecting something to come in today as January 29<sup>th</sup> was the date in our letter we had requested to hear back from the Governor.

If you are calling me about a different issue, please give me a call back on my EPA cell phone as I am working outside the office today and can be reached at 415.760.9170.
